

GOL! TRAIL CHALLENGE

Our mission is to get more of our community outdoors and to create a space that is accessible to all people, regardless of background, socio-economic status, gender identity, or ability.

We have selected a series of trails that vary in difficulty, broken up into three levels. Our hope is that you can enjoy some time in nature and earn some prizes while doing so! The GOL! Trail Challenge was created by our High School Employees with young people in mind, however, the challenge is open to everyone.

How to play:

1. Pick up your trail punch card at the Community Gear Library.
2. Visit a trail, take a picture of yourself at the trailhead, and send it to us by text or email.
3. Each time you complete a trail and send us your picture, come see us at the Community Gear Library to get your trail card punched.
4. Complete all the trails in a level and pick up your prize at the Community Gear Library!

Check our social media for trail information and tips for making your outings a success!
