***Staff Roles: (CL) =Crew Leader; (ACL) = Assistant Crew Leader**

Mountain Bike Leader = Makayla Garza

Activity Descriptions

Bike: Usually start and end at Huck Finn park. Common rides are: Mineral Belt Trail, CMC trails, or nearby dirt roads.

Crew: A crew is together doing a mix of things: environmental science, playing games, free play, nature exploration, art, songs, games, skits, and bead ceremonies to celebrate the 7 Practices of a Learner, and other camper achievements such as graduating from training wheels.

Environmental Education: One curriculum module per week based on Upper Arkansas Valley Environmental Science and Cultural History. Developed by our partner [GARNA](#).

Frisbee (or disc) golf: Like golf, but instead of hitting a ball into a hole, we throw a frisbee into a basket. Mobile baskets make for disc golf anywhere!

Hike: Location usually noted. Maybe half or a whole day. Walking on trails or dirt roads in the nearby mountains.

Fishing - May be with partner organizations such as Colorado Parks and Wildlife. Spincast fishing with lures, bait, and bubble/fly. Campers are allowed to keep fish if they'd like to eat them at home. Staff help campers field dress the fish if they are kept.

Gardening - Join our partner, Cloud City Conservation Center (C4), in learning about gardening edible plants at high altitude, and the positive health and environmental impact of locally grown, fresh foods. The C4 Farm is at the intersection of W 6th St. and Mcwethy Dr. across from Community Field.

Service Learning - Putting compassion and collaboration into action in ways that benefit our community or environment. Practicing environmental and community stewardship.

****Staff and camper crew assignments, locations, activities, and schedules may change without notice due to many factors including, but not limited to: weather, equipment, staff availability, group needs, partner organizations, transportation, and more.****
